The central committee of the American Red Cross has designated the fourth Wednesday in October for the annual meeting. In compliance with this ruling, the Barre chapter will hold its meeting in Aldrich hall Oct. 25 at 8 p. m. sharp. Besides the reports of its officers, there will be an election of the executive committee of nine members. The work of the Red Cross is sufficiently important, varied and extensive to demand the volunteer service of the ablest men and women of the community. The Barre chapter is anxious to make a good showing this coming year. To do so it will be necessary to have the support of Barre citizens. Mrs. George P. Barber of Montpelier will give a report of the big convention the early part of the month at Washington, D. C., at tonight's meeting. It is hoped there will be a large attendance.

Statement By Mr. Ford.

According to a statement just issued by Edsel B. Ford, president of the Ford Motor company, Detroit, a general reduction of \$50 a car has been made in the prices of Ford model "T" cars and the Ford one-ton truck, effective Oct. 17.

"The revision in prices," said Mr. Ford, "is the result of the increased volume which our company has enjoyed during the present year, and also, to the fact that we now own and operate many of our own sources of raw material, which enables us to continue increasing the quality of our product and at the same time keep the price so low that Ford cars are in reach of everybody."

"Our production for 1922 is already in excess of a million, which has been an important factor in bringing down costs. Our present daily output is averaging better than 5,000 cars and trucks, which means a complete Ford car or truck every five and one-half seconds of each eight-hour working day. It is in anticipation of this continued demand that price adjustments are again being made in order to keep in effect the policy of selling Ford products at the lowest price consistent with quality."

"Quality, as usual," said Mr. Ford, "will continue to be a prime consideration in the building of Ford cars. As our business has increased we have consistently increased our equipment and manufacturing facilities, so that this price reduction merely reflects the progressive methods which come as a result of increased volume."

This reduction, which is the sixth since March, 1920, brings the price of the Ford touring car from \$275, the price in effect early in 1920, to the present extremely low level of \$228, which is nearly 50 per cent less. Corresponding reductions have been made on all other types. The new prices by types follow: Touring, \$228; roadster, \$249; chassis, \$225; coupe, \$330; sedan, \$363; truck, \$350.—adv.

A birthday party was held Monday night at the home of Joseph Bellemere on the East Montpelier road in honor of Mr. Bellemere's 53d anniversary. He was taken for an automobile ride after supper and was much surprised on his return to find that all the neighbors had gathered at his home in his absence. The evening was spent in enjoying music and games and he was presented a birthday cake, lighted by 53 candles. A poem was read by his 10-year-old daughter, Dorothy. Cake, coffee and candy were served and it was 11 o'clock when the guests left for their home, joining in the expression of good wishes for both Mr. Bellemere and his wife.

The "wildcat" which for the past year has been destroying deer in the vicinity of Orange was brought into the city yesterday by John Marston of West Topsham, a member of the state fish and game department, and it turned out to be a Canadian lynx, fully developed and weighing 36 pounds. Last Sunday Mr. Marston found the carcass of a medium-sized deer on the south side of Butterfield mountain, badly mutilated by what looked like the teeth marks of either a cat or dog. Feeling that the whole-sale destruction of deer on the mountain had continued long enough, Mr. Marston set traps for the animal, only to find that it had been at the slain deer again springing the trap nearest the carcass without being caught. On Tuesday morning, however, when he visited his traps in company with Fred Magoon and John Beatty, trappers in the locality, he found the object of his search, a snarling, clawing lynx. A single bullet through the head from a .45 Colt revolver put an end to the worries of Mr. Lynx and yesterday Mr. Marston brought him into the state fish and game offices in Montpelier for the bounty. The animal will be mounted by a good taxidermist and placed on exhibition.
